NOVI, MI - January 13, 2020 - On Monday, D3 Technologies, a Platinum-level Autodesk partner committed solely to manufacturing solutions, announced they will be opening up the doors to a new office in Novi, MI.

Their latest office is located at 39555 Orchard Hill Pl., Suite 600. Novi, Michigan 48375-5381.

With their extremely experienced instructors and certification as an Autodesk Authorized Training Center, D3 can train clients quickly to support them in obtaining a faster return on their investment from the software. The new office in Novi, MI provides the area with more class availability, so clients can gain personalized, hands-on training for the most advanced manufacturing design software from instructors who are highly proficient in the software. However, D3 does not limit your options. They provide you with the choice to learn at the new training center or from your own office, whatever works best for you.

D3 Learning and Development Specialist Ryan states, “I’m excited that we can now offer a new training location in the area for customers who want to get away from distractions at their office to focus on our courses, as well as bring awareness of our virtual training options to the area.”

About D3

D3 Technologies is one of the largest and most accomplished dedicated Autodesk manufacturing partner in North America and a valued integrator of Autodesk manufacturing and plant solutions. From initial concept to final product - D3’s solutions will change your efficiencies by enhancing workflows, aligning you with the right technologies and providing educational paths. D3 has been a trusted partner to US manufacturers since 1999, and we will continue to partner with those that demand the best. You can find D3 Technologies at [TeamD3.com](https://www.TeamD3.com) and on all social media platforms.
